Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

I live 1 block away from one of the affected zones and I urge you to vote "NO" on Amendment 5. To quote pro-5 testimony "A height threshold for design review of affordable housing projects of 75 feet means taller and larger buildings than those constructed to date will move through the permit review process with no community input." That sounds great to me. Larger and taller buildings have more housing and we need more housing.
