### FY 2021-22 Annual Waste Reduction Bridge Plan

---

#### OVERVIEW

The purpose of this one-year bridge plan is to begin the transition from work plans and activities developed under the previous Regional Solid Waste Management Plan to those goals and actions in the current 2030 Regional Waste Plan (RWP). Annual work plans and associated contractual agreements between Metro and local governments serve as one of the primary mechanisms for implementation of the RWP.

As the region transitions to a new planning framework, this bridge plan is focused primarily on uninterrupted provision of comprehensive and consistent recycling and garbage services across the region; implementation of new Regional Service Standards for multifamily residents; education, information, and technical assistance programs for residents and businesses about waste prevention, reuse and recycling; and compliance with state law. State and regional regulatory requirements are satisfied through the provision of a wide range of waste prevention and recycling services and the implementation of educational programs and campaigns at both the regional and local levels.

Requirements include those specified in Metro Code Chapters 5.10 and 5.15 and associated administrative rule such as minimum service levels for multifamily households, implementation of the Business Recycling Requirement and the Business Food Waste Requirement. In addition, state law requires Metro, cities and counties to implement a series of waste prevention, reuse and recycling programs (Oregon Revised Statutes 459A and Oregon Administrative Rules Chapter 340-090). Required actions also include those designed to address topics of regional concern. Their effectiveness relies on a cooperative and consistent implementation by Metro and the region's cities and counties. As a condition of annual funding, local governments are required to participate in the development and implementation of these priority programs.

Funding, derived from the Regional Service Fee charged on every ton of waste disposed from the region, is provided by Metro to support local government implementation of the RWP's waste prevention and recycling programs and campaigns to ensure compliance with regional requirements and state law.

This Scope of Work delineates the activities and associated funding for local governments for fiscal year 2021-22.
