I support Mingus Mapps agenda items directed at a) adding Portland Police Officers and enforcement of the laws, b) cleaning up the Graffiti/trash all over the City, including actions to address the root cause of this problem and c) elimination of homeless encampments along with more humane delivery and management of mental health. I and other Mapps supporters favor priority given to the basic purposes of Government, which includes delivery of needed Government services we cannot provide as individuals. We suggest that you listen to him and demonstrate leadership needed to bring this City back.
