Get people off the streets. Period.

—Renting hotel rooms for homeless families

—Converting unused parking lots to encampment sites with portable toilets and washing stations [I just rented these for my own construction project and they are not that expensive] and garbage dumpsters

—Requiring - REQUIRING - that campers use these sites only where they can be monitored and helped. Enforce the no camping rules for tents and RVs.

Reform and expand portland police. Right now, the criminals are winning.

Very sincerely,
Vanessa Hughes
