Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I do not support the current state of the housing continuum project. It leaves too much room for interpretation on what is suitable for shelter areas, and where shelter areas can go. The new allowance for people to live in cars and campers on property is a health and safety hazard and will harm the tax paying citizen of this city. These changes are not a pathway to improvement for the people it intends to help, but a burden on the taxpaying citizen.
