Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

As a colored person, I am sympathetic to homeless plight but somehow Portland has become a magnet for homeless. Outdoor camping has degraded the beauty of the city and taxes are overwhelming. If this continues through the year - I plan to move out of city & county across the river to WA. Outdoor shelters (camps) should be stopped. I lived in Laurelhurst neighborhood for 25 years and have never seen such blight. Stricter enforcement should be included in any of the bill.
