Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

We continue to desperately need more places our houseless community can go to find support and shelter. Passing the Shelter to Housing Continuum is a great start, and we should extend the housing state of emergency and adapt the project to maximize the reach and availability of the units. Failing to care for the most vulnerable among us is no different than pushing them out in the cold.

Testimony is presented without formatting.
