Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am against this proposal. Do your jobs and clean up our city and stop enabling and favoring individuals who choose drugs and homelessness. Those who are homeless due to economic misfortune care enough too, and are able too, find the social nets in place. All this does is enable those who choose to not be an active member of society, to not be, at the negative impact of those who do. More trash, crime, and deaths as a result of turning a blind eye to drug abuse because elected officials are too lazy or scared to deal with a real issue are the only thing that will come as a result. Take care of those in genuine need and seek it. Ask those who don't to either choose to be a part of society or get out.
