Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please accept this testimony in SUPPORT of the Shelter to Housing Continuum Project. I urge you to pass this project, with the amendments proposed by Portland Neighbors Welcome: extending the housing emergency; allowing additional outdoor shelters in Open Space zones; reducing the red tape allowing churches & other organizations to host outdoor shelters; and adding alternative sanitation solutions to support vehicle dwellings. Thank you.

Testimony is presented without formatting.
