Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

As a voting taxpayer living in our city's core I am perplexed and angered at the city's blatant disregard for those of us who pay our taxes. I cannot walk on the sidewalks near my home due to the tents, trash, human waste and belligerent homeless that have set up camp on these sidewalks. I do not have the answer to the growing drug problem that has people living in filth but please do not allow camping in our parks.
