Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

We live across the street from Laurelhurst Park and annex and Oak street. We have witnessed druggie behavior, people openly pulling down their pants and pooping in the bushes, trash, rats and disregard for following rules. This is exactly what you can expect will happen if you open parks to camping. The parks and our city will be ruin. There is graffiti, trash, piles and piles. I'm am 100 percent opposed to the s2HC proposal!
