Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Hello, Thank you for the work you are doing for our city. We love our city and love Portland parks. This morning I have been cleaning up syringes and needles from the park near our home, which is the same park that small children play at during the day. The parents bring their preschoolers there as part of a group. Please protect the children of our community. If a child picked up a needle it could be a life-threatening situation if they contact a communicable disease. Thank you.
