Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I oppose the proposed zoning change. With all the money spent on affordable housing, I do not see the need to devalue neighborhoods by changing zones. People invested life savings on their properties based upon the zone and neighborhood. To change this would be detrimental to the people already there, and would devalue their investments. Portland is already undesirable because of all the homelessness camps, garbage, human waste, etc., everywhere, and this will just compound the problem. The City is at a cliff, and these proposals are just another push into the abyss.
