Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

You will not give over our parks to the homeless. Are you mentally ill? Do you hate us the people of this city? Your predecessors ruined the beauty of portland by allowing them to live without services (like GARBAGE) and now you want to do this? Its my understanding that Jordan Schnitzer offered to pay for housing for a huge number of the homeless population but our city council said no. Is that true? If so, Wtf Is the matter with you?

Testimony is presented without formatting.
