Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

My car was vandalized at a city park. If you allow people to camp there people will continue to move away as the homeless pile in. I have been in Oregon for 2 years and it has gotten so bad, there is trash everywhere. I will be moving away soon either way. There is homelessness everywhere and offering camping space in city parks where children should be playing is not a safe option for the citizens who pay good money to be there.
