Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

The amount of drugs, trash, fires, and violence due these massive waste camp sites is causing our neighborhoods to feel uncomfortable to even come outside. It's destroying our cities we pay to keep nice and safe. I can't even walk my dog due to the amount of needles and unsanitary waste laying everywhere. It's absolutely insane this is even being allowed.

Testimony is presented without formatting.
