Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

We want to voice serious opposition to the proposed shelter ordinance. We have seen that ‘camps’ that are allowed to remain any length of time end up attracting trash, drug use debris and increased neighborhood thefts. We don’t feel it’s right to delineate East county as the dumping ground for these camps. Spread them around equitably throughout the county if they are to happen. Thanks for your attention
