Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I work one block away from a park. As it is already, I feel unsafe to walk on breaks or to get lunch. I'm a young girl and walking alone anywhere makes me nervous, but the ways things have gone since this pandemic has made it worse. As it is now I've been yelled at or talked to just trying to go get lunch. I've always wanted to work downtown, but the streets have REALLY gone downhill. The cleanliness is bound to become worse if this passes, and it's bad enough already! The parks that were built to be a break from the city, should not be a solution to housing for the homeless. Please find another solution!
