Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please, please, please help us out here! You know as well as I do that East County just plain cannot absorb any more of it! We pay taxes too! They are everywhere here now! Our streets have become homeless camps & target practice areas! Surely you can't possibly think we deserve what you propose. Please remember who elected you! We are begging for mercy out here! Plesse help!
