Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

What a horrible place Portland has become to live. This will be the end for me. I am sick of being fearful in my own neighborhood, stepping over bodies lying in the sidewalk, seeing rivers of garbage as I drive through town, sidestepping human excrement. I will leave the city and the state. So will many others. You will be left with only people who can't get out — and Portland will be just one big tent city. What a terrible waste. What awful management of a once-spectacular gem. This is a non-solution to a big problem. What is the long-term plan?
