Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am absolutely against the provisions of this Project for all the same reasons as given in other public testimony that is NOT in favor of the Project. I have read in the local newspaper that Portland is no longer "Stumptown" and is now "Dumptown". That is certainly the case as I drive through our city. I know city leaders and volunteers are attempting to address this issue, but I believe the Project's passage will only exacerbate this issue and others that are equally detrimental to ALL Portland residents. I do not have a solution, but I definitely believe this Project is not one either.
