Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

The homeless situation is ruining our city and making it unsafe. Allowing homeless to take over our parks/common areas and further damage areas we pay taxes upon to use is senseless and unsafe and furthering the acceptance of inappropriate use and allocation of tax dollars by making a public space unsafe for those paying to use it! I'm embarrassed by our city and it's inability to lead and allowing such destruction to take over.
