Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I was born and raised in the once-beautiful city of Portland. Until recently we were known as a peaceful, clean city. We need to get rid of the homeless camps and all the garbage and toxins they generate, not have them in our open spaces, in particular the city parks!!!! The next generation should not have to grow up amid discarded needles, human waste, garbage, stripped cars and stolen merchandise. By the way, would this only apply to the EAST SIDE of the city/metro area?? I wouldn't be at all surprised. Thank you
