Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

These sort of actions make it clear to me my decision to move away from Portland (and my children and grandchildren) was a good decision. Your proposals will clearly not help the problem but only perpetuate the problem. My wife and I are more and more disgusted every time we return to the area. Many long term Portland family's are following me or are soon to do so. The city I loved is being destroyed right before our eyes. Wake up and stop drinking the cool aid.
