Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am all for more shelters, extending the time they're allowed to stay, types of shelters available in certain areas. However, I don't agree that the majority should be pushed to the East where there the majority of people of color are being forced to go. There should be a more proportionate dispersement of shelters. Especially since there are so many transients living in the NW side of town.
