Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please stop taking away all the parts of portland we found charming and pay taxes to enjoy - move the services around portland metro - spread them out and put the drug addicts together In Terminal two where they can pull apart cardboard and yell at each other and give us some peace. For the love of god leave our parks alone for those of us who need a green space to enjoy on a nice day. We endure enough shit (literally) just trying to walk to the grocery store. Sickening.
