Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

This is a terrible proposal. We have to clean up the city. We have had so many incidents in and around the Park Blocks of people urinating /defecating in doorways. Thrash on the streets, threatening , screaming and shouting abuse as we go about our daily business. As a business owner and employer, if this continuum is approved, I will close my business and move out of Portland. This madness must stop.

Testimony is presented without formatting.
