Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am opposed to using our parks and public spaces as houseless space. It's inhumane for the so called houseless and to move forward is to enable the practice of unacceptable living conditions. Further, it diminishes the quality of life for the tax paying citizens. We need to invest money in services to address mental health issues and put people in proper living spaces. And there needs to be accountability for the houseless.
