Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Zoning codes were put together to protect public citizens from a very small minority of people misusing property that is supposed to be used by the public and left as they found it originally that day. These proposed changes will destroy the City's park system, as the parties promoting this code change could not help but understand. Parks will no longer be a safe haven for children and families. STOP ALLOWING TRANSIENT CAMPS IN PUBLIC SPACES! STOP TRASHING WHAT ONCE WAS THE CITY OF ROSES!

Testimony is presented without formatting.
