Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

City Council We are not in favor of this change to our land use / zoning laws. Our state and portland community proud of land use planning legacy Tom McCall provided. Any significant changes such as this proposal should go through similar rigorous agency gate keeping from UCDC to metro to citizen vote. This proposal is more chronic issue wherein we should be focused on the real cure not simply a band aid!
