Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please take the rights of taxpayers into consideration in this latest plan to allow camping in our parks. We have reached a tipping point with what we can put up with. The city is filthy and unsafe. The parks are a refuge for us. Please do not allow this green space to be filled with garbage and evidence of drug and alcohol use. Taxpayers deserve more consideration.

Testimony is presented without formatting.
