Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

This is such CRAP!! Is there any intelligent life on our City Council? Our ENTIRE CITY looks like a 3rd world country w/the lack of LAWS being enforced. Truly I am embarrassed to be an Oregonian. If we continue to be a mecca for anyone with the inability to respect the law, that continues to abuse public places and that feels entitled to brazenly violate property when & wherever they please AND then the city continues to reward these people for their bad behavior! Our Police officers get no respect, our city bends over backwards to accommodate the population that is taking & taking and not giving back in any way. I'm flabbergasted by the suggestion to mutilate yet another beautiful green space for this population of users & abusers of our previously beautiful city!
