Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I couldn't disagree more strongly about MAKING PARKS drop zones for the homeless. These outdoor spaces are some of the only left for us to go safely during COVID with our families. It is clear the city does not have any intention of cleaning up the garbage and drug paraphernalia left by the homeless. Just look around the city. The last place it should end up is our city parks, where children play, dogs roam and people eat.
