Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please do not pass legislation making it possible to camp in any open green spaces and parks. These kinds of encampments are often trash strewn areas and i don't want that to be possible in more green spaces. We need clean park areas where individuals, families and children and older people feel safe in walking. Also, i oppose making more areas eligible for camping because this is a sanitation hazard that i do not want to increase
