Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

No Camping in City Parks. No camping near homes, schools. Yes to creating dedicated parking lots for tent/car camping , charge a sliding scale fee (free to need) with camping spots, regular garbage service and bathrooms/showers and security. It should be on blacktop that can be powerwashed to reduce disease. Maybe some pallets to put stuff up on so it can be hosed down with disinfectant. Have people for life skills counseling, mental health, salvation army soup kitchen? Electricity on poles. You dont have to build Tiny Houses...too expensive. Maybe large open sided covered areas. But no camping willy nilly all over the city.
