Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

If the city of Portland is considering housing the homeless in city parks, I strongly disagree with this idea. The parks should be for Everyone to use, and we pay a lot in taxes to support parks. If homeless are allowed to live in parks, they will no longer be parks for all people. I would not like the parks I pay for and enjoy to become places for people to live.
