Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am writing in strong support of the Shelter to Housing Continuum Project and associated amendments proposed by Portland: Neighbors Welcome. We need more housing choices, including low-cost, high-quality tiny home villages that can help meet an urgent need. Also, co-living homes with shared amenities just makes a lot of sense. I appreciate the leadership of Mayor Wheeler and council in advancing smart, forward-looking housing policy, including the residential infill project set to take effect this summer. We should build on that approach and keep expanding housing choices for those getting squeezed. Thank you for your consideration.
