Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Allowing camping in public parks would be a huge mistake. If you look at the public comments the opposition to allowing camping in public parks is overwhelming. 1100+ comments with ~95% against camping in parks. I think Portlanders finally reached their limit of these camps and their impact.

<https://www.portlandmaps.com/bps/testimony/#proposal=s2hc>

1) They do need to create sanctioned sites in open city owned land (not in parks) with sanitation 2) Enforce camping laws EVERYWHERE else outside of sanctioned camping sites

Testimony is presented without formatting.
