Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

look, i'm no right winger, but yall wanna let people stay in parks for 180 days?! the homeless problem here is already out of control. this will make it so much worse. obviously the only people who are gonna wanna stay in a park more than several hours are people who are trashing the city. please don't make portland worse. i love this city but it looks horrible right now.
