Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Legal camping in our parks??????? We all know these are not "campers". Good campers respect nature and leave their campsite in the same state as when they arrived. These are mentally ill people! Help them!! Get them off the streets!!! You are going to regret this, personally, when a mentally ill person kills a child trying to enjoy the park. Oh wait, there won't be any children in the park, because it will not be a "park", it will be an open mental illness encampment. This has got to be one of the stupidest ideas anyone has ever come up with. Don't we taxpayers own property that isn't used by the public?? I have spent nearly my entire life in Portland and am considering selling my house to some sucker. You people are out of your mind. And bonus, not helping these mentally ill people AT ALL.
