Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Hi, Goodmorning all. My name is Zale Lightner this morning I have become an ordained Minister, and can be addressed by either. I have witnessed an article in the newspaper stating that there is 3 million dollars of state funding for a homeless crisis. I am here today and will observe your formal meeting in conjunction to the housing and shelter initiative. My personal initiative is that of a Community Self Storage place. In order for participants to gain access to this storage they will have to perform some form of community service. This will serve you as well as the rest of Portland well I believe and will personally be doing all in my power to beautify this city. Thank you For reviewing this proposal, have a happy St. Patricks day and I am looking forward to our meeting at 2 PM.
