Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

The idea of opening up our parks for camping is only inviting more homelessness and problems into our neighborhoods. I personally walk my dog and take my 8 year old daughter to Berkeley Park daily. I would no longer feel safe taking her there knowing people are camping in or city parks. Please **DO NOT** pass this, it is not a solution to the homeless issue and is only penalizing those of us who pay taxes to keep these parks up.
