**#278372 | March 17, 2021**

Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

We need more shelters and permanent solutions to house the houseless. I full support removing some of the barriers to make that happen, and even incentivize private parties to fill the void. What we don't need is to relax regulation on camping within the city limits. The camping is ruining this city. Its adding to graffiti, theft, and bio hazards. Allowing camping and turning a blind eye is the #1 biggest problem our city faces right now. We need to clean up this city.
