Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please Please Please vote against this! Or at least table the discussion until you can get more public input. Portland is the 'City of Parks'-it is for all, but the taxpayers foot the bill. This will destroy them. Not to mention the safety factor. As a person living next to a park, I already can not let my 16 yr old or myself run or walk in the park alone because of the current danger. This is mostly attributed to an already bad homeless population living there. This is a terrible option and will destroy our already very vulnerable city. PLEASE vote against this. Sincerely, Elizabeth Gamble Caldwell
