Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

First, I learned about this too late to get photos. However, there are several notable camps that are out of control. The first one is next to Safeway at 3527 SE 122nd Ave, Portland, OR. It is the street just south of the store, intersection SE 122nd & SE Rhone. There is a large encampment that is frequently blocking the road accessing the south driveway to Safeway. I have personally witnessed a person lighting a fire in the street. There is a mix of tents, vehicles & trailers. People there are hostile & yell if you access Safeway via SE Rhone. Right across the street on SE 122nd along side of Ace Hardware 3660 SE 122nd Ave, Portland, OR there are several rv/trailers blocking the view of the street if you are trying to exit from Ace Hardware. There is trash all over at both locations. The 3rd area is the intersection of SE Harold & SE 128th Ave. Homeless vehicles are parked on the NE & SE corners, many are parked in front of the Qwest bldg too. Trash comes & goes from this location. It is near a school bus stop for kids.

Testimony is presented without formatting.
