Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please work to find a better solution to the homeless problem. Please clean up and clear out our public sidewalks, public parks, streets, and public school grounds!! As a homeowner and a tax paying citizen of Portland, I shouldn't have to be blockaded by a tent while walking down a sidewalk with my kids and be forced to cross the street. Camping cannot be permitted in public spaces, it's unacceptable, period. Drug use, feces, urine, garbage, is what comes along with homeless camps, please clean up Portland's public spaces and please do not make it easier for campers to continue down this wreckless path.
