Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Absolutely do not want any of our parks turned into temporary housing sites with the resulting garbage, human waste, needles and general lawlessness. The city has asked taxpayers for additional funds for parks several years in a row. This is not what our parks are for and not what I intend to financially support. Parks are for everyone to come and enjoy not stay. Find other places to "temporarily" house people.
