Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

We do not want to sacrifice our parks to homeless camps. Trash, drugs, disease, crime, intolerable poverty and disorganization will prevail. I own a home close to the new Eroll Heights Park under development for recreational use. This idea will destroy this and make useless the 13 million dollar budget for the completion . Why do people in peaceful neighborhoods have to be shoved aside to accommodate what no one wants. The destruction of our peaceful enjoyment of life . Ruin another neighborhood and the real estate we cherish. Please stop the march to destroy Portland.
