Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

The Shelter to Housing Continuum Project would only be acceptable to me under 3 conditions: (1) unsanctioned camps/campers **MUST** be removed, (2) you identify which open spaces will be used for sanctioned/supported shelter, and (3) parks, park parking lots, community centers, and public golf courses are legally not included in these open spaces.

Testimony is presented without formatting.
