Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I'm against this proposal because it is focused on mapping and design, but missing lots of key pieces: 1) access to social services and transportation from/to zoning areas in East Portland 2) community input from those in zoning neighborhoods 3) socioeconomic disparities of those in zoning neighborhoods of East Portland 4) environmental damages that come from allowing urban camping 5) planning on how those who are houseless will be moved into the zoning areas 6) clean up plans. I'm all for affordable housing, but this "solution" is haphazardly done, lacks details, has environmental and social economic damages that will again severely impacted BIPOC residents of Portland.

Testimony is presented without formatting.
